Profile

Hardworking and passionate Geographer transitioning into tech, with strong organizational skills and a growing expertise in frontend web development. Eager to contribute meaningfully to team success in a reputable organization by leveraging both analytical and technical skills.

Employment History

Frontend Developer Intern

Cyncra Technologies | Jun 2025 – Present

- Building responsive, user-centered interfaces using React.js, TailwindCSS, and JavaScript.
- Collaborating with developers to integrate APIs, write reusable components, and manage code using Git.
- Gaining real-world experience in agile development and production-level workflows.

Frontend Engineering Trainee

School of Engineering, AltSchool Africa
Nov 2024 – Present

- Gaining hands-on experience through real-world projects and team collaboration.

- Worked on both class-based and personal freelance projects using HTML, CSS, JavaScript, and React.
- Built responsive layouts and interactive components focused on clean UI and great user experience.
- Applying tools like Vite, Git, and REST APIs while learning UI/UX principles and performance optimization.

Customer Support & Sales Representative

Cars45, Lagos
May 2019 – Dec 2023

- Ensured high levels of customer satisfaction by addressing concerns promptly and professionally.
- Managed walk-in customer interactions and daily center operations as Center Manager.
- Achieved performance goals through effective sales strategies and client relationship management.

Internships

Graduate Intern

Institute for Development Research
Feb 2022 – May 2022

- Received tailored training and mentorship on international development practices.
- Supported research initiatives focused on sustainable development and policy analysis.

Forecasting Intern

Nigerian Meteorological Agency (NiMET)
Jan 2013 – Dec 2013

- Assisted in providing accurate weather forecasts for aviation and public use.
- Participated in weather observations around aerodromes and along flight paths.
